The Cisco Spark Board: A 3-in-1 Team Collaboration Device for Meeting Rooms

The Cisco Spark Board, is a new team collaboration device that combines wireless presentation, digital white boarding, and video conferencing. It is a fully cloud- and touch-based solution that is designed for team collaboration, securely connecting physical and virtual meeting rooms. It is located in a physical meeting room but is connected to the Cisco Spark service to facilitate continuous workflow before, during and after the meeting and even after everyone has left the physical room. Through the Cisco Spark app, team members both in the physical conference room and attending remotely can meet, message, call, and, now, white board from anywhere through their Cisco Spark app-enabled device of choice.

Key capabilities:

- **Wireless presentation**: Share your presentation, locally in the room or remotely, without any need for wires, dongles, adapters, or typing in PIN codes

- **Digital whiteboard:** Easily white board with the Cisco Spark Pen or your finger and automatically save content to a Cisco Spark virtual space; multiple people can white board – in the room or remotely on any Cisco Spark app-enabled device

- **Audio/video conferencing system:** Make your high-definition video or high-fidelity audio calls directly on the Cisco Spark Board

- **Continuous workflow:**
  Connect the Cisco Spark Board to a virtual Cisco Spark space and your whiteboard creations and other shared documents will live there securely, available to be reviewed and edited by any member of the team from another Cisco Spark Board or any Cisco Spark app-enabled device

Board Benefits:

- **3-in-1 solution:** The only tool you need to collaborate in physical meeting rooms

- **Simplicity:** A fully touch-based system that is intelligent, intuitive, and effortless to use

- **Continuous teamwork:** The cloud-based platform lets your work continue before, during, and after the meeting is over on any Cisco Spark app-enabled device

- **Cost-effective, scalable and secure:** Cloud registration makes it affordable and easy to deploy in all of your conference rooms, with end-to-end encryption
